about this ad

### Favorite ports of call

Every cruise has a highlight — that one day that stands out in your memory above all others. These ports of call are among our favorites, but the list is meant to start arguments rather than end them, to jog memories of journeys past and to inspire future voyages to parts unknown.

#### Favorite Mediterranean Port of Call: Dubrovnik, Croatia

As it did in medieval times, the Pearl of the Adriatic (in the words of Lord Byron) once again rivals Venice for culture, history, architecture, café-sitting and people-watching. It lacks Venice's canals, of course, but also its floods. And its west-facing coastline is perfect for sunsets. The walled old city is a UNESCO World Heritage site, with few hotels and no cars, making it ideal for exploring on foot.
