French river cruise line CroisiEurope has introduced a series of Family Club cruises on which children under 16 will be allowed to cruise for free or at a discounted rate.

On the Family Club cruises, families of four (two parents with two children that are five years and older) will receive a second cabin, while families with one child will receive one cabin. Additionally, the single supplement will be waived for single parents traveling with children up to 16 years of age.

The Family Club departures will also include supervised water games and kid-friendly activities and children will be invited to take part in a performance at the end of each cruise.

The Family Club option is being offered on four CroisiEurope itineraries for 2017.
