There's something special about lying in your bed and watching planes go by, and hotel designers have begun to notice. There are now an increasing number of [airport hotels with runway views](#), transforming airport hotels from a necessary evil for fliers with extra short stays into desirable places to spend a night. So get your [plane-spotting tools](#) ready and book one of these rooms with a view.

### Hilton Helsinki Airport

Guest rooms on high floors offer excellent views of the runway and terminal, but rooms facing the interior should be avoided. The international terminal is on full display in the executive lounge.
