Learning Journeys powered by Perillo Tours will seek to expand traditional family getaways with customized itineraries and create a learning adventure with hands-on experiences through destinations worldwide, Perillo Tours says.

Perillo Tours, best known for its tours to [Italy](#), will offer worldwide itineraries with the new program. Each destination offers travelers the opportunity to fully immerse in the local culture and cuisine while engaging in niche-based travel through themed excursions, Perillo says.

Each itinerary offers a minimum of three themed experiences as well as a Freedom of Choice Experience, which allows learners to choose a course based upon a specific area of interest. Sample itineraries include:

- 8-Day Kenya Family Safari Adventure
- 9-Day Costa Rica Family Discovery
- 10-Day Arabian Family Adventure
- 10-Day India Culture and Cubs
- 12-Day Greek Family Yacht Adventure
- 13-Day Italian Family Journey

The Learning Journeys itinerary allows families to broaden horizons and create a bonding experience by learning something new together, which builds memories and lasts far beyond the travel experience, Perillo says. The program is commissional to agents.
