In case you missed it, cruise ships have actually gotten cool. But maybe you need more than a giant Angler fish waterslide and a shipload of booze to keep you entertained while on the high seas. Sometimes you need a week with a band, celebrity, or week of events based around your favorite hobby. They're called **theme cruises**, and are nothing new with everything from Zumba to swingers having their own chartered ships over the years.

But you know what makes those new ships even cooler? Coolio. Or a bunch of pro wrestlers. Or crossword puzzles. Or any of the awesome new themes on eight new cruises launching this year. All prices quoted are for the lowest-priced available cabins, per person.
