QUEBEC CITY, CANADA

[Quebec City](#) might just be the perfect wintertime destination to visit during the month of December. Located in eastern [Canada](#), this quaint city, set alongside the sparkling St Lawrence River, possesses a certain old world charm. A brisk walk throughout Quebec City's frosted cobble streets and you'll sport horse-drawn carriages trotting alongside the city's majestic Fairmont Le Chateau Frontenac. You'll no doubt feel welcomed by the warm atmosphere and distinctly French ambiance. With snowfall practically guaranteed during December, as long as you don't mind the cold, this location is an undeniable winter wonderland!
