For a taste of the Old World without straying too far from home, Montreal is a sure bet. With beautiful architecture dating to the 1600s and 90 percent of Canada's French-speaking population, the city feels more "foreign" to American travelers than perhaps Toronto or Vancouver. In addition to the history, the food scene is can't-miss, whether you're craving bagels, Beaver Tails or the classic Canadian poutine. © Think Design Manage | Dreamstime.com

In Quebec City, walk the cobblestone streets of one of the oldest cities in North America while you take in the UNESCO World Heritage site of Old Quebec. Don't miss the charm of the Petit Champlain district and Place Royale Square, where Quebec City was founded. This is also North America's only remaining fortified city and you can still see the fortifications of Quebec, built in 1608. © Songquan Deng | Dreamstime.com
