St. Barth Properties also has a number of larger villas, including some with up to eleven bedrooms.

Situated on the Vitet hillside, Villa Clementine with three bedrooms boasts an extraordinary panoramic view. In the late afternoon guests can gather on the terrace to sip cocktails, while watching a beautiful sunset. An open floor plan features a modern well-equipped kitchen and adjacent outdoor dining area. The contemporary living area is comfortably furnished; an over-sized heated swimming pool that is flanked by a sundeck with stunning views; and a fitness room that is located on the lower level. Two of the en suite king bedrooms are located on the main level of the house, while the third is on the lower level. Villa Clementine is a wonderful choice for couples as well as families. **Prices start at \$6,070 per week during value season and \$10,070 per week during high season.*

Villa Panoramique

Contemporary Villa Panoramique was named for its stunning 360-degree vista of Petit Cul de Sac. The main house includes a chic-and-comfortable, air-conditioned living room, adjacent dining area and a sleek kitchen where a window frames a postcard-worthy view. The master bedroom with king bed has an en suite bath and opens to a meandering multi-level deck. A separate bungalow houses two connecting guest bedrooms; one has a French king bed and the other has a double. There's an extra-long heated lap pool between the pavilions; the outdoor living space includes a dining portico. Thanks to screens all 'round, guests can enjoy delightful breezes. **Prices start at \$4,870 during value season and \$6,870 during high season.*

**Value season runs from April 16-December 14 each year and high season runs from December 15 through April 15 annually.*
