Finnair Opens Direct Summer Route From Toronto to Europe Via Helsinki

New York, NY, Tuesday, April, 2011 – Finnair will reintroduce a direct summer route between Toronto and Helsinki with connections to over 50 destinations in Europe. Finnair will offer a scheduled flight between Toronto Pearson International Airport and Helsinki Airport five days a week from May 26 to September 11, 2011. Finnair's summer rates will start at 825 CAD.

For passengers looking to travel to Europe, a stopover in Helsinki offers a fast and efficient connecting time. In Helsinki's compact terminal, designed especially for transfer traffic, Finnair operates one of the youngest fleets in Europe and offers several high-class lounges and a unique Finnair Spa. In 2009, Helsinki was appointed as the World Design Capital 2012.

Finnair will also open two new destinations including Murmansk in Northern Russia and Aarhus in Denmark in cooperation with Sun-Air. Leisure flights to Malaga and Nice will change to a scheduled service during the summer session. Direct services to other familiar summer destinations include Slovenia, Poland, Lisbon, and Pisa. In addition to serving over 50 destinations in Europe, Finnair flies the shortest and fastest direct route to 10 cities in Asia via Helsinki such as Delhi, Hong Kong or Seoul. Flights to Delhi start at 999 CAD. A direct service between Chicago and Helsinki will begin May 14, 2011, when oneworld partner American Airlines starts operating the new route.

About Finnair

Finnair, one of the world's oldest operating airlines, offers a comprehensive route network via Helsinki to over 50 destinations in Europe and 10 cities in Asia. Finnair's long-haul route flights to Asia fly the straightest geographical route via Helsinki, providing the shortest and fastest connecting time in Europe from US. Finnair is a member of oneworld alliance, the leading global airline alliance. In May 2011, Finnair will launch direct flights to Singapore. Last year, Finnair has taken delivery of five new Airbus A330s that represent the latest modern technology: low fuel consumption, environmental efficiency and passenger comfort. www.finnair.com
